Laboratorio Semana #11 – Servidor FTP

Nombre: Luna Samantha Arrazola Escobar

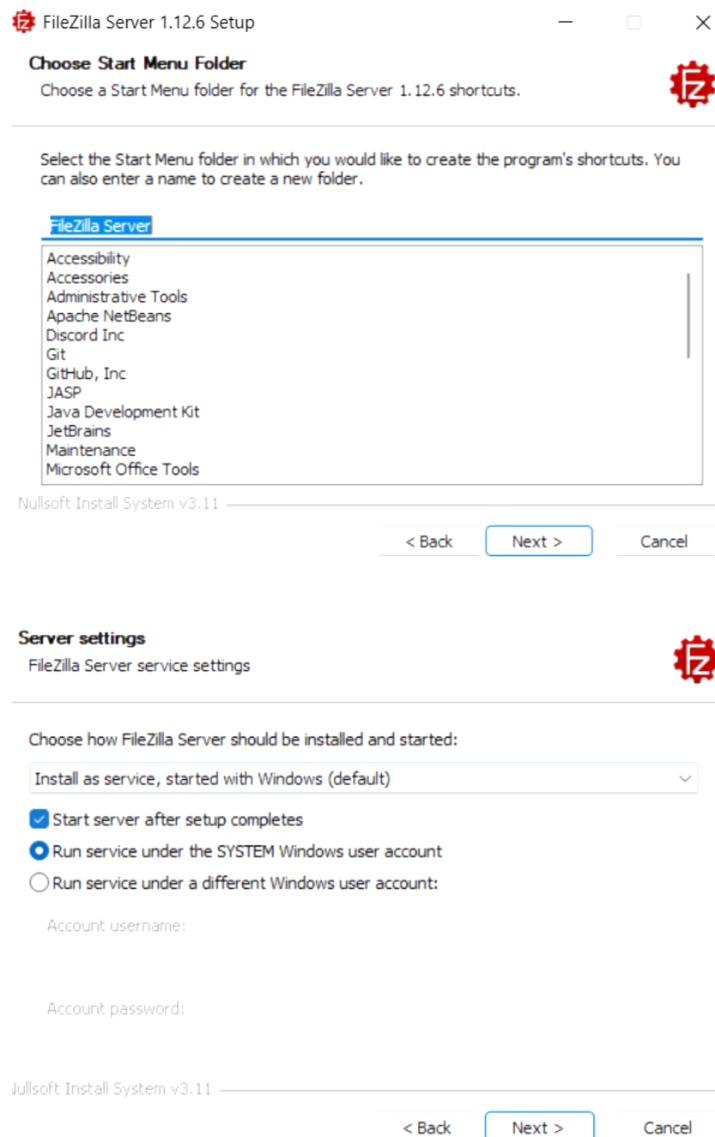

Carné: 1022725

Nombre: Ángel Julián García López

Carné: 1097925

Configuración del servidor FTP

1. Instalación de FileZilla Server

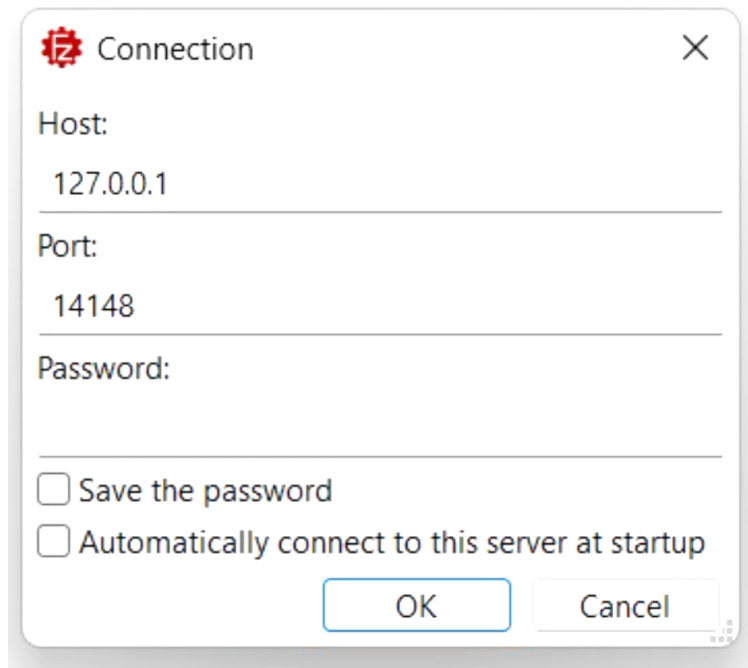

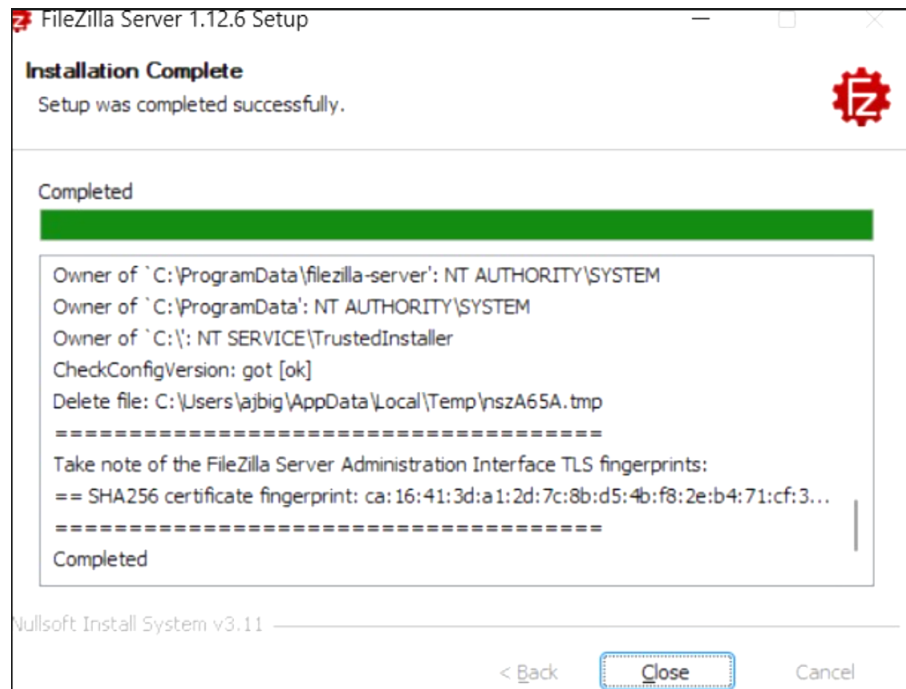

The screenshot shows the FileZilla Server 1.12.6 Setup window. The title bar reads "FileZilla Server 1.12.6 Setup". The main heading is "Choose Start Menu Folder". Below it, the text says "Choose a Start Menu folder for the FileZilla Server 1.12.6 shortcuts." A list of folders is displayed, with "FileZilla Server" selected. The list includes: Accessibility, Accessories, Administrative Tools, Apache NetBeans, Discord Inc, Git, GitHub, Inc, JASP, Java Development Kit, JetBrains, Maintenance, and Microsoft Office Tools. At the bottom, there are buttons for "< Back", "Next >", and "Cancel".

Below the first window, the "Server settings" window is shown. The title bar reads "FileZilla Server service settings". The main heading is "Server settings". Below it, the text says "FileZilla Server service settings". A dropdown menu is set to "Install as service, started with Windows (default)". There are three radio buttons: "Start server after setup completes" (checked), "Run service under the SYSTEM Windows user account", and "Run service under a different Windows user account:". Below the radio buttons, there are input fields for "Account username:" and "Account password:". At the bottom, there are buttons for "< Back", "Next >", and "Cancel".

2. Finalización e ingreso a la interfaz de administración

3. Listener FTP y usuario de acceso

Settings for server 127.0.0.1:14148

Select a page:

Configuración y pruebas del cliente FTP

1. Intento de conexión y validación del certificado

The screenshot displays the FileZilla client interface. The top toolbar includes icons for file operations. The status bar at the bottom shows 'Queued files', 'Failed transfers', and 'Successful transfers'. The main window is divided into two panes: 'Local site' and 'Remote site'. The 'Local site' pane shows the local file system structure, including directories like 'Volumes', 'bin', 'cores', 'dev', 'etc', 'home', and 'opt'. The 'Remote site' pane is currently empty, indicating no connection to a remote server.

The status bar at the top of the FileZilla window shows the following information:

- Host: 10.202.146.174
- Username: AngelGarcia
- Password: *****
- Port: [blank]
- Quickconnect button

The status bar also displays a series of error messages:

```
Status: Connecting to 10.202.146.174:21...
Status: Connection attempt failed with "EHOSTUNREACH - No route to host".
Error: Could not connect to server
Status: Waiting to retry...
Status: Connecting to 10.202.146.174:21...
Error: Connection timed out after 20 seconds of inactivity
Error: Could not connect to server
Status: Disconnected from server
Status: Connecting to 10.202.146.174:21...
Error: Connection timed out after 20 seconds of inactivity
Error: Could not connect to server
Status: Waiting to retry...
Status: Connecting to 10.202.146.174:21...
Error: Connection timed out after 20 seconds of inactivity
Error: Could not connect to server
```

A dialog box titled 'Unknown certificate' is open, warning the user that the server's certificate is unknown. The dialog provides details about the certificate, including the fingerprint (SHA-256), fingerprint (SHA-1), validity period, and issuer. The user is prompted to either trust the certificate or cancel the connection.

The dialog box content is as follows:

Unknown certificate

The server's certificate is unknown. Please carefully examine the certificate to make sure the server can be trusted.

Compare the displayed fingerprint with the certificate fingerprint you have received from your server administrator or server hosting provider.

Certificate

Overview

- Fingerprint (SHA-256): f3:59:ed:d4:50:64:4d:8b:ca:fb:1c:7:6:aa:7d:59:dd:64:0c:f3:ea:89:53:ec:bd:ce:5b:cc:56:13:6b:f8
- Fingerprint (SHA-1): b6:3a:66:a8:d1:9a:07:66:95:c4:92:9f:21:26:43:4a:f1:28:1c:ea
- Validity period: From 16/09/2026 07:43:18 AM to 17/09/2027 07:48:18 AM

Subject

- Common name: filezilla-server self signed certificate

Issuer

- Same as subject, certificate is self-signed

Details

- Serial: 93:aa:5a:e5:b3:8b:24:71:e8:b9:95:05:83:99:5e:e6:9e:7a:57:b3
- Public key algorithm: EC/ECDH with 256 bits
- Signature algorithm: ECDSA-SHA256

Session details

- Host: 172.20.10.3:21
- Protocol: TLS1.3
- Cipher: AES-256-GCM
- Key exchange: ECDHE-SECP384R1-ECDH-SHA256
- Mac: AEAD

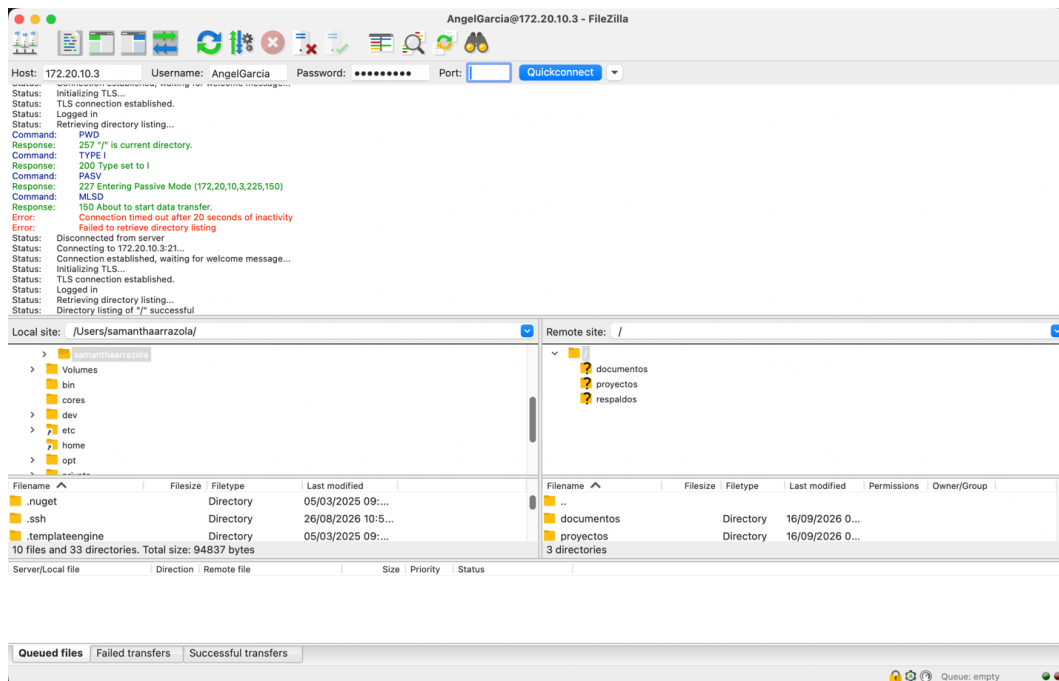

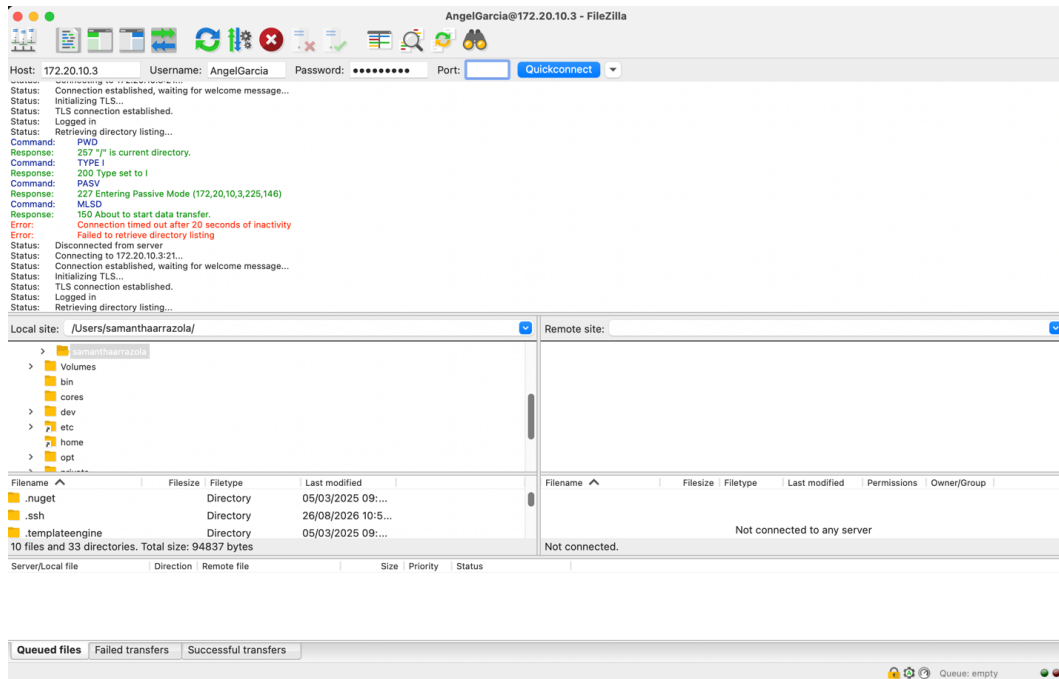

Trust the server certificate and carry on connecting?

- ☐ Always trust this certificate in future sessions.
- ☐ Trust this certificate on the listed alternative hostnames.

Buttons: Cancel, OK

2. Conexión establecida y acceso al sitio remoto

3. Navegación y descarga de archivo
